

hoppekids®
- with heart & soul

Rooms with heart and soul

With Hoppekids you can easily transform the child's room into a safe and amazing universe, with plenty of space for your child to flourish and develop all through childhood.

There is hardly any room in the house with higher demands for flexibility and personality than the child's room.

By choosing Hoppekids you get a complete furnishing solution of high quality to very reasonably pricing. Our furniture shows the trends of the time according to colors, shapes, motives and materials.

The furniture is modular and multifunctional, making it easy to adapt the furnishing of the room to the needs and wishes of your child. At the same time, it is both easy and affordable to renew the textiles in order to make sure the design matches the newest trends and the age of your child.

Inspiration for a safe choice

It is our finest task to provide you with the perfect room for you and your child and we offer almost

endless combinations. As the father of three I know how different the needs of children are both in relation to their age and unique personalities.

On the following pages you can discover the world of Hoppekids and read about our attitude towards safety and quality. Did you know that our modular bed systems are the only ones in the world which has been certified with the Nordic Ecolabel? It is a certificate of which we are extremely proud and which holds a lot of obligations. The Ecolabel is your guaranty for the highest standards in regards to safety, health and environment.

Welcome to the world of Hoppekids
– a world with heart and soul.

René Stenvang

Safety - with a clean conscience

Whether you choose Hoppekids BASIC or Hoppekids PREMIUM, regarding safety, health and environment. Both systems

you are ensured a bed system meeting the highest standards are – as the only ones in the world – eco-labeled.

Hoppekids BASIC

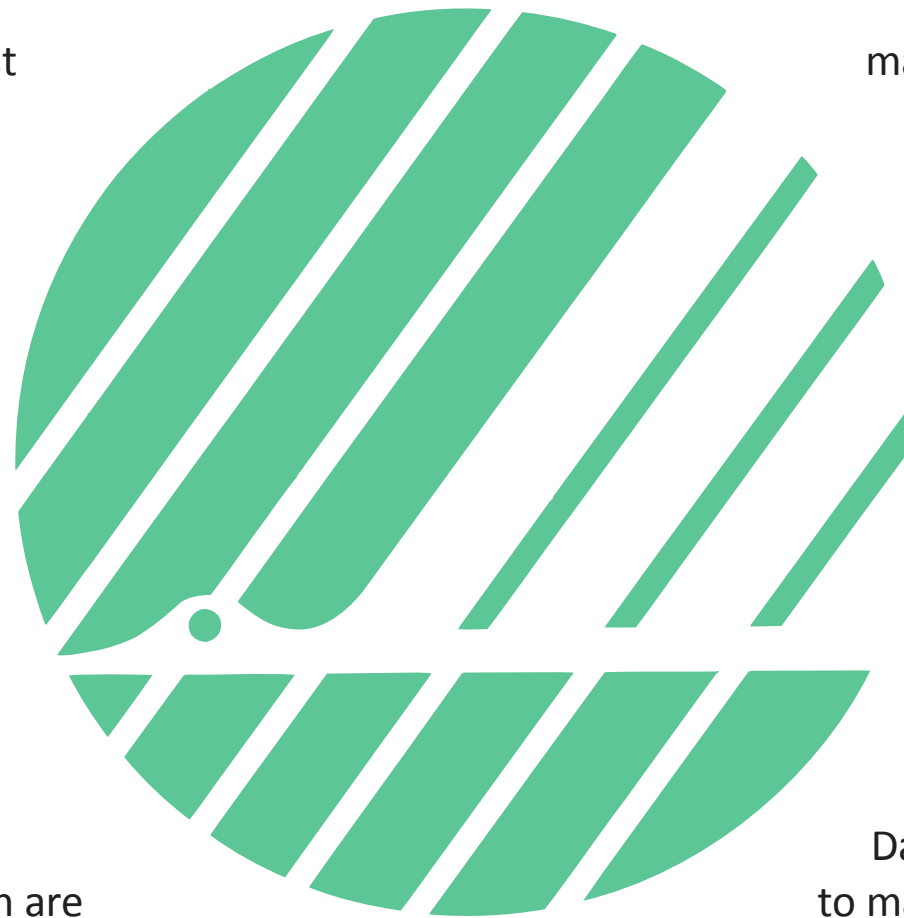

The standard and simplistic bed

- ✓ Light construction with 52 x 52 mm legs
- ✓ 25 x 65 mm safety rail
- ✓ Good selection of standard beds.
- ✓ Fixed program with modules and accessories

Why should you choose children's

furniture with the Nordic Eco-label?

Eco-labeled furniture must meet a wide range of demands towards durability, strength and stability. The longer the furniture is usable the less it effects the environment and the climate. All furniture is tested in accordance to safety and durability standards by independent institutes. Our Eco-labeled beds are made from FSC-certified timber, from forests which are

managed according to strict demands in respect of sustainability. E.g. trees are replanted in the same number as they are cut. All surfaces are only treated with Eco-friendly water based lacquers.

The demands towards the Eco-label are constantly increased to make sure only the very best products are certified. Miljømærkning Danmark is constantly checking to make sure all demands are met.

The Eco-label is your guaranty that all possible considerations has been taken towards safety, health and environment throug

Hoppekids PREMIUM

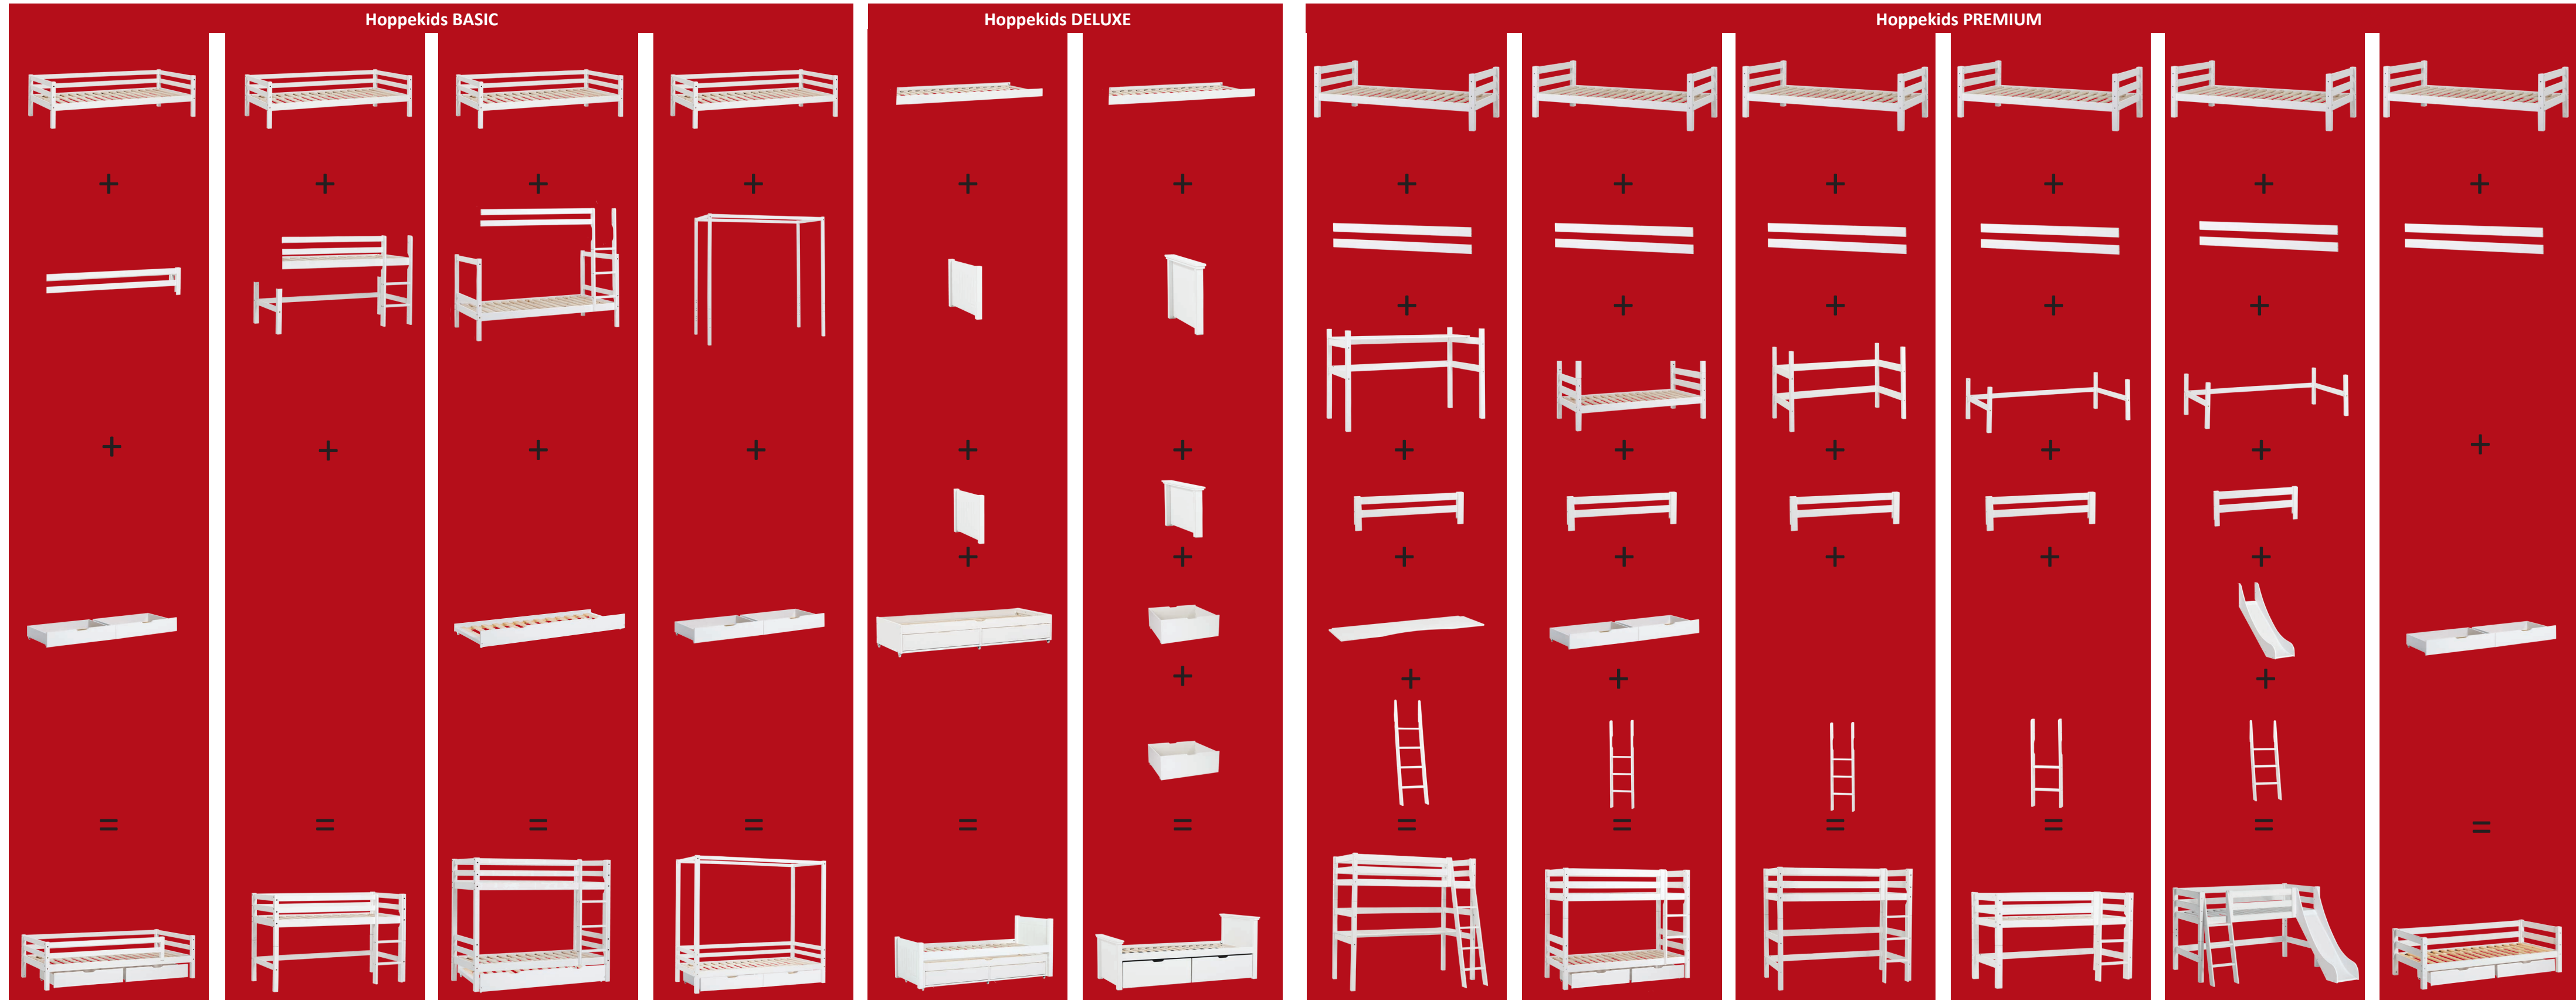

The flexible and exclusive bed

- ✓ Strong construction with 65 x 65 mm legs
- ✓ 25 x 90 mm safety rail making thicker mattresses an option.
- ✓ A lot of possible combinations
- ✓ Flexible program with more modules and more accessories
- ✓ 5 years availability guaranty making build-on to your PREMIUM bed a possibility

5 checks

- when furnishing the child's room

- ✓ **Choose safety**
Your child should be in the safest environment when in his/her room. Choose furniture tested according to the applicable standard. E.g. a halfhigh junior bed must meet the demands of EN-747 standard.
- ✓ **Choose flexibility**
Many get surprised of how fast the needs of their child changes over time. Choose modular furniture and the room will be up to date many years ahead.
- ✓ **Choose durability**
Children furniture must at times endure rough handling. Choose certified furniture and you are sure the durability is tested by independent institutes.
- ✓ **Choose with the eyes of your child**
A child's room is not only a practical room. It is a room for play and imagination. Choose the colors and the design which suits your child now. You can always change it later.
- ✓ **Choose security**
It must be safe and secure for the child to explore the world. Choose furniture with Nordic Ecolabel and you are ensured both durable and safe material which does not emit any harmful substances.
